

# Our premium resin strap

*The Ultimate Combination of Functionality and Fashion!*

# Material Of Resin Strap

*Comfortable, Breathable, and Water-Resistant!*

**Resin watch bands** are typically made from a type of plastic called **polyurethane**. Polyurethane is a synthetic material that is known for its durability, flexibility, and resistance to wear and tear. It is a **lightweight material** that is also **water-resistant**, which makes it an ideal choice for **outdoor activities and sports**.

**Polyurethane resin** is created by mixing two types of chemicals together: a diisocyanate and a polyol. These two chemicals react together to form a polymer, which can be molded into different shapes and forms.

The **polyurethane resin** is molded into a strap shape that can be attached to a watch face. The strap can be designed in a variety of colors and patterns, making it a versatile accessory that can complement any style or outfit.

Overall, polyurethane resin is a **strong and durable material** that is ideal for use in watch bands. It can withstand the rigors of daily wear and outdoor activities, while also being **comfortable and lightweight** to wear.

# Strap Cleaning Tips

*Cleaning a resin strap is a relatively simple process*

Here are some steps you can follow:

**Avoid** using harsh chemicals or abrasive cleaners, as these can damage the resin material.

- **Remove the watch band from your watch:**

Before you begin cleaning, remove the watch band from your watch so that you can clean it more easily.

- **Prepare a cleaning solution:**

Mix a small amount of mild dish soap with warm water in a bowl or container.

- **Soak the watch band:**

Place the watch band in the cleaning solution and let it soak for a few minutes.

- **Scrub the watch band:**

Use a soft-bristled toothbrush or cloth to gently scrub the watch band, paying special attention to any areas that are particularly dirty or stained.

- **Rinse the watch band:**

Rinse the watch band thoroughly with clean water to remove any soap residue.

- **Dry the watch band:**

Use a clean, dry cloth to pat the watch band dry. Avoid using a hairdryer or other heat source, as this can damage the resin material.

- **Reattach the watch band:**

Once the watch band is dry, reattach it to your watch and adjust the fit as needed.

# Hey!

We are the manufacturer for smartphone & laptop accessories
