

Flexible Customization & Fast Delivery for Brands since 2006

Angel Zhong

- Graduated from Lingnan EMBA, Sun Yat-sen University
- 20 years of global trade experience
- Participated in more than 60 exhibitions at mainland and overseas and visited more than 20 countries

### Target:

- Shape faster, better, more accurate business ideas
- Implement green production, green products and green actions
- Provide one-stop ODM flexible customized solutions for global brand customers

## Introduction of Company

- Since it established in 2006, C&T has expanded its business all over the world and became a national high-tech enterprise integrating R&D, design, production and sales.
- Since its establishment, it has been committed to rapidly responding to the changing needs of the market, providing global brand customers with comprehensive, systematic, one-stop ODM flexible customized solutions.

- C&T has 8000 square meters of its own automated factory, with injection molding, sewing and packaging three major workshops, forming a complete production chain.
- The injection molding workshop focuses on the production of a series of high-quality mobile digital accessories such as mobile phone cases, AirPods cases, watch bands, tablet covers, computer covers and brackets.
- Sewing workshop is focused on the manufacture of multi-functional handbag series, including mobile phone bags, computer bags, storage bags, straps, leash and other pet products.
