Market Consumption Pain Points

“Phone case turning yellow”
has become a common
complaint among users.

Design for Anti-Yellowing

The back panel uses Bayer PC material with high transparency and anti-yellowing properties.

The grip area is Bayer PC-wrapped to prevent high-frequency contact with sweat and yellowing.

The metal lens frame and buttons, with zero-yellowing materials, protect the areas prone to yellowing.

100 Days of Daily Use = Still Anti-Yellowing

Meet
the Standard

UV ultraviolet aging test box

Comply with national standard GB/T16422.2

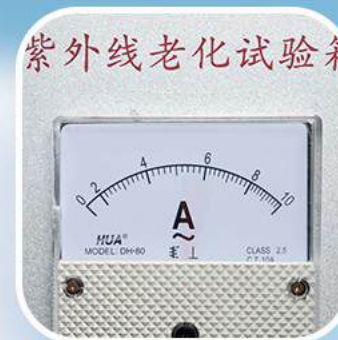

15W ultraviolet light, 50°C, 80 hours

Left $\Delta E \geq 3$, Right $\Delta E \leq 1$

ΔE is the standard for judging yellowing. $\Delta E \leq 1$ = the difference is almost invisible to the naked eye.

The working current of the lamp is normal
